Deepening our Understanding of Classroom Research: Reflections from the Artists and Children Together initiative

Saturday, September 29th, 9:30am-2:30pm (includes lunch)
Holiday Inn Oakville @ Bronte, 2525 Wyecroft Road, Oakville. L6L 6P8

As educators, we know the value of observation and documentation but have you ever wondered what to observe?
How do I know what to look for when children are interested in everything?
How can I slow down so that I can really see children?

Ontario’s pedagogy invites us to become classroom researchers and co-learners that construct and make meaning of learning together. Research helps us bring visibility to children’s strengths and intelligence and provides us with a lens to see and listen more deeply and brings new life to learning together.

Featuring Lorrie Baird and Educators and Artists from the ACT initiative!

In this session, we will share stories and documentation of classroom research and learn strategies and protocols for creating our own research questions that can enrich our practice. Educators and artists will share their own reflections on how research has influenced how they see children and themselves as co-learners with children.

Participants will also have the option of viewing the Exhibit after the session concludes.
