Frequently Asked Questions:

- What is the difference between a screening and an assessment?

Our screening clinic is designed to identify children who might have a developmental problem and should be referred for an extensive assessment. Screening can be conducted quickly, usually in 20 minutes.

- Is there a fee for this service?

No, we do not have a fee and a Health Card is not required.

- Do I need an appointment?

No, PEP-Start is a drop-in clinic and it is first come, first served.

- I can't speak English well. Can I still attend?

Of course! Interpretive Services can be arranged with 2 weeks notice OR bring someone who can translate for you.

- I can't get time away from work. Can someone else bring my child?

Yes, as long as you send along a signed note with your family member, giving them permission to attend with your child. It is always better to talk directly with the child and parent.
