

Canadian Playground Safety Institute fall courses start in 6 weeks!

Just a reminder to you and your staff that the series of CPSI courses being offered for the fall of 2004 are starting in Mid-September for anyone who may be interested in attending.

The schedule is different from previous course offerings in that participants can now take the Theory and Practical courses back to back. This encourages the ability to gain certification after the 4 day session and also reduces travel expenses.

For personnel that are new to the industry and requiring certification, they can choose to attend the Theory and Practical courses back to back or take the Theory course now and the Practical at a later date.

If personnel's certification is expired, or due to expire, they are only required to attend the Practical course and upon successful completion of the exam, their certification would be extended for another 3 years.

All courses and dates are confirmed, so course material can be sent out once registration forms are received to allow for ample study time.

Registration information can be downloaded from <http://www.cpra.ca/cpra-new/CPSI/registration.htm>

2004/05 Canadian Playground Safety Institute Course Schedules
