Teacher Talk™: Encouraging Language Development in Early Childhood Settings:
Play and daily routines provide opportunities to create enriched, interactive language-learning environments that include all children. Learn how to: identify the children’s conversational styles and the roles teachers play, let the child lead in individual and group interactions, and help children become better conversational partners.

This training will show you how to use everyday conversations, play and daily routines to promote the communication and social development of all children, including those with language delays and those who are second language learners.

You'll learn how to:

1. Identify children’s conversational styles and the role teachers play in interactions

2. Implement six steps to following the child’s lead: Observe, Wait and Listen, Be Face to Face, Imitate, Interpret, Comment, and Join in and Play

3. Help children become better conversation partners by using appropriate questions, comments and turn-taking cues

4. Use five important steps to ensure that no child is left out of the interaction during group activities

Presenter:
Moira Showers is a Speech-Language Pathologist at ErinoakKids Centre for Treatment and Development. She is part of the Peel Inclusion Resource Services (PIRS) Specialized Consultation Team. She is a Hanen course instructor and clinician.
